

# BLOOD EXPOSURE INCIDENT PLAN

**IN THE EVENT OF A POSSIBLE BLOODBORNE PATHOGEN EXPOSURE:**

- 1. Employee must wash the affected area with soap and water immediately after the potential exposure.**
- 2. Employee must inspect the exposed area for skin imperfections.**
- 3. Employee must inform their supervisor immediately after performing the visual inspection even if there are no skin imperfections.**

**IF AFTER CONSULTATION YOUR SUPERVISOR BELIEVES THAT YOU HAVE SUSTAINED AN EXPOSURE, THE INCIDENT SHOULD BE REPORTED WITHIN TWO (2) HOURS TO A HEALTH PROFESSIONAL.**
